Swedish Pelagic Federation's response regarding the update of Ireland's port policy

Swedish Pelagic Federation producer organisation (SPF) represents Swedish pelagic fishing on coastal quotas, regional quotas and with individual fishing rights. We have members who fish in the Baltic Sea, on the west coast and in the North Sea. We thank you for the opportunity to submit our views in this consultation.

Some of our members have quotas for blue whiting fished off the coast of Ireland. They usually exchange these quotas for other fishing opportunities and, generally speaking, Swedish pelagic vessels do not fish in these waters today. For this reason, we abstain from submitting any comments to this consultation.

Annelie Rosell, SPF
