Consultation response on Scottish MPA:s

(Webbformulär)

The Swedish Pelagic Federation Producer's Organisation (SPF PO) takes note of the consultation and also that there are specifically no proposed fisheries measures for pelagic fishing gear in any of the proposed MPA:s. If there are future regulations of pelagic fishing gear in any Scottish MPA, SPF PO would like to be a part of consultations as we have members fishing in Scottish waters.

Malin Skog,
Sweden Pelagic Federation Producer Organisation
